## HEAD OF GERMAN SPIES ARRESTED

**MAN WHO PLANNED  
WIRELESS TOWER IN  
MEXICO, IS NABBED  
AT NEW YORK CITY**

ALBERT WEBBER, OFFICER IN  
KAISER'S ARMY, AT LAST TRAP-  
PED BY SECRET SERVICE MEN.

**HAD BEEN LONG WANTED**

SLIPPED OUT OF SIGHT EARLY IN  
THE MONTH AND HAD MADE  
HIMSELF HARD TO FIND.

(International News Service.)  
New York, June 27.—Albert  
Webber, an officer of the German  
navy, and declared by the police  
to be the director-general of the  
German spy system in the United  
States, was arrested here today.  
The police have been seeking him  
since June 3, when he slipped out of  
sight. Last night they received in-  
formation that he would visit Broad-  
way and Forty-second street to get  
some mail. Detectives were placed on  
watch and the arrest followed.  
Webber is charged with violation of  
the regulations governing the ship-  
ment of mail. He also is charged with  
erecting a wireless plant in Mexico,  
to be used to send important infor-  
mation to Berlin regarding this coun-  
try's movement.

**Spain May Soon  
Become Republic;  
Unrest Increasing**

(International News Service.)  
Paris, June 27.—Domestic troubles  
of the gravest sort again loomed up  
in Spain today. Dispatches from the  
frontier said that the unrest had been  
increased in some quarters by the  
declaration of martial law, and that  
agitators were urging the people to  
strike at once for a republic.  
The situation is complicated by the  
fact that King Alfonso cannot rely  
entirely upon the army to enforce  
his decrees. Certain demands made  
by the army officers recently were  
smoothe over by Premier Dato, but  
he was at once confronted with new  
demands.

**Local Negro Arrested  
as 'Slacker'; Sheriff  
Says Not Guilty**

The arrest of a Morgan county  
negro as a "slacker" was reported  
to the sheriff's office this morn-  
ing.  
The negro, Julius James, has  
just worked out a fine on the  
county road for breaking open a  
box car. Shortly after registra-  
tion day he left for Illinois and  
there was arrested because he  
could not show his registration  
certificate.  
However, the sheriff found upon  
investigation that the negro had  
daily registered and will write  
the proper authorities in Illinois.  
Evidently the negro had lost his  
registration card.

## RUSSIAN CONGRESS OPPOSES SEPARATE PEACE WITH KAISER

**Workmen's and Soldier's Delegates Vote Only  
For Honorable Ending of War**

**GERMANS DELIVER COUNTER ATTACK**

**Which Are Repulsed By French. Sharp Fight-  
ing North of Aisne**

(International News Service.)  
Petrograd, June 27.—The restoration of peace at the earliest possible  
time is necessary for the success of the revolutionary republican move-  
ment in Russia, says a resolution adopted today by the All-Russian con-  
gress of workmen's and soldiers' delegates.  
At the same time the congress goes on record against a separate  
peace, asserting that a general peace is more to be desired.

**GERMAN ATTEMPT TO  
RECAPTURE GROUND FAILS**  
(International News Service.)

London, June 27.—An attempt by  
the Germans to recapture ground lost  
by them in the sector of Fontaine-Les-  
Croisilles on the Arras front was re-  
pulsed, the British war office announ-  
ced today. After shelling the British  
trenches very violently the Germans  
concentrated troops for an attack, but  
before the assault could be fully de-  
veloped it was broken up by heavy  
artillery fire of the British.

In the Oppy sector of the Arras  
front the British raided German  
trenches.

**VIOLENT ARTILLERY BATTLE  
RAGES NORTH OF AISNE.**

Paris, June 27.—A violent artillery  
battle raged throughout the night  
north of the Aisne river. The big  
gun duelling was especially severe in  
the Hurbise sector, the French war  
office announced today.

**ARTHUR W. MAY U.S.  
ENGINEER, KILLED  
BY FALL OFF BRIDGE**

**INSTANT DEATH COMES TO ARMY  
OFFICER AT BRIDGE 19 OVER  
SHOAL CREEK.**

Arthur W. May, aged 35, a civil en-  
gineer in the employ of the United  
States government, was killed near  
Hartselle at noon today when he  
stepped off bridge No. 19 over Shoal  
creek on the line of the Louisville &  
Nashville railroad.

Mr. May was engaged with two  
other engineers in measuring the  
line of the L. & N. for the government  
to ascertain its length in case the tak-  
ing over of the railroads was neces-  
sary during the war. He stepped  
backward while on the trestle and  
fell 25 feet, dying instantly.

The wife of Mr. May has been visit-  
ing in the Twin Cities for the past  
several weeks. The body of engineer  
will be sent to Nashville, his old  
home, tonight on L. & N. train No. 4  
by Corsbie & Co., Hartselle under-  
takers.

The couple were married only three  
months ago.

**OLYMPIA, DEWEY'S  
FLAG SHIP WRECKED**

(International News Service.)

Block Island, R. I., June 27.—  
The United States cruiser Olym-  
pia, which went on the rocks off  
Block Island yesterday, will be  
lost. The bulkhead of her mag-  
azine is smashed and she is ill-  
fated.

(International News Service.)

Block Island, R. I., June 27.—The  
cruiser Olympia, famous throughout  
the world as Admiral Dewey's flag-  
ship at the battle of Manila Bay, was  
lying off the rocks at this port with a  
list of nearly 15 degrees when the sun  
rose today. The officers and crew have  
been taken off. The cruiser was evi-  
dently badly damaged.

**DECATUR SCHOOL  
FACULTY NAMED**

The faculty of the Decatur schools  
as nominated by Supt. Floyd Collins  
and elected by the school board was  
announced today by Secretary J. H.  
Calvin of the board, as follows: Miss  
Mary Banks, Miss Vivian Tilman, Mrs.  
C. A. Cartwright, Miss Bessie Speake,  
all of Decatur; Miss Julia Murphy,  
Mrs. J. F. Collins, Miss Nina Left-  
wich and Miss Ada Jones, of Tuscum-  
bia; Mrs. Eleanor Kidd, of Birming-  
ham, and S. R. Hutto, of Anniston.

The faculty of the negro schools  
consists of Supt. Wilson, re-elected;  
Estella Sykes, Countess H. Cashin,  
Leticia Wilson, Pearl Hosendove and  
Ethel Smith.

**Heat Record Wrecked  
Tuesday, as Average  
Hurries to Catch Up**

North Alabama is still in the  
grip of a sultry heat wave, the  
very hottest since the weather  
bureau was established here. Ac-  
cording to Mrs. A. H. Irons, who  
has charge of the weather bureau,  
the temperature yesterday re-  
mained at 100 degrees until 4  
o'clock, and every indication  
points to as high a temperature to-  
day.

As the heat average is far be-  
hind for the year and as it is so  
hot now the ultimate perspirer is  
looking with a dreaded apprehen-  
sion to the hottest months of  
July and August. The crops so  
far are not suffering for rain.

**FORMAN, DRAPER ALBANY CHAPTER OF  
AND MURRAY WILL RED CROSS GRANTED  
COMPOSE MORGAN CHARTER; \$1,802 IS  
EXEMPTION BOARD RAISED FOR WORK**

**SHERIFF, COUNTY COURT CLERK  
AND HEALTH OFFICER WILL BE  
OFFICIALS TO ADMINISTER SE-  
LECTIVE DRAFT, SAYS WORD  
FROM MONTGOMERY.**

**WERE ALSO REGISTRARS**

**INSTRUCTIONS HAVE NOT BEEN  
RECEIVED HERE AS TO WHO  
WILL BE DRAFTED INTO SE-  
VICE BUT NO WHOLESALE CLASS  
EXEMPTIONS WILL BE MADE.**

The Morgan county board that will  
pass on local claims for exemption  
under the selective draft law will be  
composed of Circuit Court Clerk Jas.  
L. Draper, Sheriff J. A. Forman and  
County Health Officer M. W. Murray.

This was the report received here  
this morning from semi-official circles  
in Montgomery. The report declared  
that Gov. Henderson notified the war  
department late last night that he had  
decided to recommend to President  
Wilson the appointment of the same  
men for the exemption boards who  
composed the registration boards in  
the various counties of Alabama. The  
recommendation of the governor will  
be equivalent to appointment.

If this is true the board will be  
composed of the three county officials  
named above.

It was learned today that the ex-  
emption board has not received from  
Washington any instructions regard-  
ing the nature of exemptions. It has  
previously been announced by the pro-  
vost marshal that no general class  
exemptions will be made and this is  
taken to believe here, in the absence  
of official information, that all mar-  
ried men will not be subject to ex-  
emption nor will any occupation nec-  
essarily exempt men from the draft.  
It is believed, however, that if pos-  
sible the county's quota of men for  
the first army to fight in France will  
be composed for the most part of un-  
married men whose occupations are  
not necessary to the conduct of the  
war.

It is expected that the draft will be  
set in operation within the next week  
or two and the men who are chosen  
for service will be in training camps  
by Sept. 1.

**Small Fire at Hotel  
Hilda Quickly Put Out**

The Decatur fire department was  
called out this morning about 9:30  
o'clock to a fire at the Hotel Hilda.  
The ashes in the furnace were taken  
out, setting fire to the trash and pa-  
per in the basement. The fire was  
put out in time to prevent damage.

RAISED FOR WORK**

**FORMAL ORGANIZATION TO BE  
COMPLETED AT MEETING TO BE  
HELD TOMORROW AFTERNOON  
AT 4 O'CLOCK.**

**DR. J. L. GUNTER IS CHAIRMAN**  
MRS. EARLY, DR. GUNTER AND  
MAJOR BASSETT HEARD AT  
LAST NIGHT'S MASS MEETING  
AT MASONIC THEATRE.

The Albany chapter of the American  
Red Cross has been granted a char-  
ter, according to announcement last  
night at the Masonic theatre, when  
Mrs. Helen Boggs Early was the prin-  
cipal speaker, and will formally per-  
fect its organization at a meeting to  
be held tomorrow afternoon at 4:30  
o'clock.

Dr. J. L. Gunter is the permanent  
chairman of the chapter and H. R.  
Thompson of the Y. M. C. A. is per-  
manent secretary. Other officers will  
be chosen at the meeting tomorrow  
afternoon.

Red Cross Total \$1,802.  
Mayor Payne announced at the  
meeting last night that the amount  
reported for Albany had reached \$1-  
802 for the Red Cross. However, some  
of the committees had not reported.  
A final and supreme effort is being  
made today to make the subscription  
as high as possible.

Mrs. Early gave specific warning  
against using the name of the Red  
Cross as a cover for personal gain.  
She said that no meeting must be  
advertised under the auspices of the  
Red Cross unless full benefits went  
to that organization.

"This war is going to be a big thing.  
I don't think you people realize what  
sacrifices it means to us," said Mrs.  
Early in the course of her address.  
But she expressed her gratitude at  
seeing so many gardens planted, even  
on the lawns and in the front yards.

Dr. Gunter, the chairman of the  
meeting, made a short address, as  
did Major Chas. Bassett.

**GIRLS WILL BE EMPLOYED AS OPERATORS**

**City to Be Widely Advertised Through Medium  
of its Silk Products**

Albany is to have the only silk mill in the South!  
The Daily was today authorized to make this announcement by the  
Albany Board of Commerce, which has practically completed arrange-  
ments for bringing the industry here. It will be housed in a handsome  
new building to be erected near the Louisville & Nashville passenger  
station, and which will be one of the most imposing structures in the  
city.

The Board of Commerce has been  
negotiating with a well known New  
York manufacturer for more than  
three months, and on the recent visit  
of this gentleman to Albany, details  
were perfected and the deal closed.

The mill will require 10,000 square  
feet of floor space to accommodate  
the 90 to 100 looms with which it will  
start. Sufficient ground has been re-  
served for enlargement, as the pur-  
pose of the company is to increase  
its capacity to at least 500 looms  
within five years. Employment the  
first year will be given to about 100  
girls and women, and efforts will be  
made to have the mill in operation  
within three months.

**Important Factor in Industrial  
Development.**

The incorporation of the Albany  
Silk Mills and its operation will be  
an important factor in the industria  
development of the city. Being the  
only silk mill in the South, the city  
will receive wide advertising through-  
out the United States from its loca-  
tion here and many other mills along  
similar lines will be attracted.

Much credit for the location of the  
enterprise in Albany is due to the  
untiring efforts of W. W. Archibald,  
secretary of the Board of Commerce.  
Mr. Archibald made the trip east that  
interested the manufacturer, and  
since that time has given his per-  
sonal attention to perfecting the de-  
tails.

**AMERICAN TROOPS  
LANDED IN FRANCE**

(International News Service.)  
Washington, June 27.—The arrival of two contingents of Amer-  
ican troops in France was announced this afternoon by the commit-  
tee of public information, on receipt of cable advices from Paris.  
Secretary of War Baker refused to make a statement.  
Other contingents are expected to arrive in rapid order. The  
name of the port of embarkation is withheld.

**WILSON TO SAY  
WHETHER U. S.  
BANISHES BOOZE**

(International News Service.)  
Washington, June 27.—The sen-  
ate agriculture committee, 9 to 7,  
this afternoon rejected the sub-  
committee's prohibition amend-  
ment to the food control bill and  
adopted in its stead, 9 to 7, a  
provision under which the presi-  
dent would have authority to per-  
mit the manufacture of wines only.

Washington, June 27.—Bare dry  
prohibition for the United States rests  
with President Wilson today.

Should he indicate a willingness  
to accept responsibility, it was admitted  
today, the senate will jam through  
an amended food control bill which  
will prohibit further manufacture of  
distilled spirits and delegate to the  
president responsibility whether vin-  
ous and malt liquors are to be manu-  
factured and sold during the remain-  
der of the war period.

If the president shall let it be  
known he doesn't believe such re-  
sponsibility should be his, then the  
struggle now in progress in the sen-  
ate must be fought out to the bitter  
end.

The senate very plainly desires "to  
pass the buck." Friends of the presi-  
dent believe he has no desire to ac-  
cept what actually is legislative re-  
sponsibility.

When the agricultural committee of  
the senate met today it had before  
it the report of the sub-committee  
dealing with the house bill passed  
last Saturday which contained the  
bone dry provision. There is a dis-  
tinct possibility that the president  
will let his views on the subject be  
known soon.

The bill goes to conference after  
the senate gets through with it. It  
will be two or three weeks at least  
before the country will know what  
to expect on this subject.

**WORKMEN ARE STRONG FOR  
DAILY GLASS OF BEER**  
(International News Service.)

New York, June 27.—The majority  
of the organized workmen of the  
country are opposed to any legisla-  
tion by congress that will deprive  
them of their daily glass of beer, the  
International News Service learned  
from a canvass of presidents of state  
Federations of Labor today.

President Samuel Gompers and the  
executive committee of the American  
Federation of Labor were today  
threshing out the liquor question be-  
hind closed doors at Washington.

### A Bungalow With a Personality

A bungalow which portrays strength and personality, one could not pass this home without being favorably impressed with its appearance. This home looks its best on a large terraced lot; backed with shrubbery and large shade trees. The large front porch, 8x40 feet is the predominating feature of the exterior, linked with the broad entrance of concrete and cobble stones. The wide dormer window breaks the monotony of the roof.

The interior is charmingly arranged; living room and dining room is virtually one large room, a handsome colonnade separates them; the ceilings are heavily beamed. A broad and massive mantel from floor to ceiling, flanked with book cases lends an air of cheer and contentment. Two features of this home makes it particularly distinctive, one, the inglenook adjoining the living room, which may be used as a music room, the other the large pergola separated from the inglenook by French doors. Nothing adds to the comfort of a home as does plenty of doors and windows. This is one feature that is not overlooked in this home. A modern kitchen will lighten the housewife's burdens—plenty of cupboards, drain boards, cabinets, cooling closets, etc. A large screened rear porch may be utilized for a summer dining room. This home planned so that every inch of space is utilized to the comfort and convenience of every member of the family.

### Real Estate Basis of Wealth! Home Building Badge of Thriftiness!

In this age of get-rich-quick schemes, shady stock selling propositions and precarious promotions of various and sundry firms and corporations, it is well to stop and think before making investments; take time to reason out the best method of placing your money where it will be safe.

Don't experiment with investments—it's a costly method—availing few returns and in most instances entailing heavy losses.

The one sure, safe and sane investment is Real Estate, the basis of all wealth. Of course, we don't mean for you to gamble with it or overload yourself with encumbered property, but purchase a lot, build a home—that's a good start.

Recently in Pittsburgh, Mike Dwyer, a suburban grocer, retired from business worth over a million dollars, not made from the profits of his store, or from gambling with stocks, but from investments in Real Estate. Mr. Dwyer first bought a lot, built a home, paid it out, and continued to buy property. Yes, it took some years, and some hard work to accomplish his aim, but his reward was worth the effort.

Home building is the badge of thriftiness, the symbol of honesty, and the sign of progressiveness. Therefore, home builders make honest, thrifty and progressive citizens.

Nothing can stop the progress of a city with home owning citizens, for their hearts, minds and souls are rapped up in their city and they are willing to work for its up-building.

Remember that Real Estate is the basis of wealth and home building the badge of thriftiness. Is it not wise then to encourage that class of investments?

### Everything in Hardware for Builders

It is the most important to select the best hardware for that new home or building.

That brings you here, for we make a point of carrying nothing but the best builder's hardware that adds not only to the beauty of a building but to its selling value as well.

The Sash and door Locks, Hinges, Etc., are a very small part of a building, but will repay many times for the cost and trouble of proper selection. Cheap goods are a continual source of trouble and worry.

We are prepared to name interesting prices on the complete hardware for any style of building from the humble cottage to the largest office building.

Yes sir! We also sell the best building Tools—all moderately priced.

## A LITTLE OPTIMISM WOULD IMPROVE BUSINESS.

Business, just at present, is a trifle below normal. This fact can be easily ascertained by making inquiries of local merchants, or of merchants in other parts of the nation. The cause for this depression would be very aptly termed as "psychological" by President Wilson, and the explanation would be so satisfactory that it would be readily accepted by any person who is at all familiar with conditions.

It is peculiarly true that business flourishes in proportion to the spread of optimism and confidence. In fact, such a large percentage of Americans risk their money on a general "hunch" that times are good, that any unprecedented condition that upsets the regular trend of affairs invariably sends money into hiding. And with the withdrawal of the circulating medium, there is a "tightening up" in every quarter that has a bad effect.

In the olden days, before the federal reserve banks silenced the panic producers and the prosperity wreckers, all that was necessary to produce chaos and confusion and cowardice was for a few of the Wall street barons to pull the purse strings. This is no longer possible, and business reaction now must be charged directly up to the public. There is no question as to where the responsibility lies.

Take local conditions. They are the best in twenty years. The Louisville & Nashville payroll is larger than for two decades. The other industrial plants are working full time. Wages have reached a new high level. Cotton is selling at civil war prices. Everybody has a garden. Corn is being grown in profusion, and there are other crops that will bring in large revenue. But for the existence of a community hobgoblin that feeds upon idle fears and unfounded dreads, there is not the slightest doubt but that Albany and Decatur would be drying along at the fastest clip since boom days. Prosperity is justifiable. It is real. All that is lacking is the courage to go ahead and do "business as usual."

This is no time for long faces and limited trading. It is the duty of every citizen to become an optimist, to accept conditions as they are and to express their genuine Americanism by believing that we will win the war. The possibility that "something may happen" is too remote to terrorize any man of normal spine and average mental attainments.

## RED, WHITE AND BLUE BOOK IS UNNECESSARY.

The American government issued on June 26th a war book similar to those issued by the European powers that are at war and named "the red, white and blue book," instead of the Red book, the Blue book, the White book and the other various books issued in Europe.

The purpose of the Red, White and Blue book is to tell the American people and the belligerent and neutral peoples of the world just why we enter the war.

To such purpose the Red, White and Blue book adapts itself admirably. But the plain fact is that it was not needed because every simpleton in christendom knows why we went to war.

Every simpleton in christendom knows that we went to war for self defense and for the time honored

American doctrine of the freedom of the seas. He who reads running knows that we went to war for the protection of the small nations of the earth and to guarantee to them the right to live unmolested by any great military power. Lastly, we all know that we went to war "to make the world safe for democracy."

There will be no argument in after years as to why the United States and the rest of the entente allies went to war. Their declarations of war was just an answer to the German question whether they would take German insults standing up or lying down and the entente preferred to take them standing up. History in after years will indict the Kaiser as the arch-criminal of all the ages for bringing upon the world the most cruel and bloody and at the same time the most unnecessary war in the history of the world.

And except to keep the record straight for the benefit of future generations, the American Red, White and Blue book only wastes good print paper. The war was just a question of whether or not we would continue to live as a free people or be the bondsmen of a crazy German emperor who descended from a notorious gang of Teuton horse thieves and who now claims his rule by divine right and the special dispensation and partnership of providence.

## SENATE SHUNTS LIQUOR RESPONSIBILITY TO PRESIDENT.

The agriculture committee of the United States senate has shunted to the already burdened shoulders of President Wilson the responsibility for deciding whether the nation shall be "bone dry" during the period of the war. Press dispatches indicate that the recommendation of the committee will be concurred in, and that the food control bill, which carries the temperance provision, will be enacted by Saturday night.

The Daily is very well content to leave the matter in the hands of the nation's executive, confident that he will issue the necessary order that will ban intoxicants and conserve the grain supply, already inadequate to meet the needs and demands of ourselves and our allies. At the same time, the very fact that the weighty and distinguished senators should seek at a time like this to escape responsibility for initiating a reform that already has been placed in effect in every allied country, including the great republic that at one time was referred to as "darkest Russia," seems just a bit like political cowardice. It would have smacked more of American manhood had the senators faced the issue squarely and voted their convictions.

It is about time the nation was developing some real statesmen other than Woodrow Wilson.

## "DOG DAYS."

The Columbia, S. C., States, says: "Also, it will be necessary to raise enough in South Carolina to feed a half million yaller dogs." This is a pertinent paragraph, in the broadest sense. With food controllers in every allied nation and with "meatless, wheatless days" as plentiful as holidays in Alabama, the world continues to grow food for some millions and other dogs. All of them are not "yaller," but most of them have a streak of saffron, else they would curb their overweening appetites in this time of national and international stress and distress. Why not have "dog days," when there could be a wholesale thinning out of this voracious appendage of animal life? Must man go thirsty and hungry while his canine friends feed full and wax fat? Shall the dogs be allowed to win the war for Germany?

Two years ago the Albany-Decatur Daily conducted a "Build It Now" campaign, the purpose of which was to induce building on a liberal scale while materials were cheap and to give employment to labor in a period of depression. Some of the "knockers" ridiculed the idea, and a few progressive business men scoffed at it. Today, with building materials advanced in price at least 100 per cent, the value of the educational propaganda is admitted.

The contention of the I. N. S. that the Associated Press has no property right in news once made public is one that must be sustained by the courts of the land if the public is to be saved from the tentacles of another trust. If the A. P. is allowed to gather news and claim it as its own, to the detriment of the general welfare, there is but little doubt that it can stifle competition as easily as the Standard Oil Company did.

Suppose the banning of liquor does reduce Uncle Sam's revenues? Isn't it cheaper after all to pay the additional tax that must be imposed, than to pay for the immense quantity of intoxicants that would be consumed and the extra cost of flour that will result?

## British Consul to Mexico City Has Been Ordered Home

(International News Service.) Mexico City, June 27.—H. A. Richards, the British consul, left for London today, having received an urgent recall from his government. High importance is attached to the action of the English government.

## Navy Is Censored For Nurse's Death

(International News Service.) Washington, June 27.—Censure of the navy department in failing to provide thorough tests in connection with the recent accident which killed two Red Cross nurses on the liner Mongolia, is contained in the naval affairs committee report of the accident submitted to the senate today.

## Rivers and Harbors Bill Passes House

(International News Service.) Washington, June 27.—By a vote of 205 to 132, the house today passed the rivers and harbors bill appropriating \$27,000,000 to be expended in water improvements in all parts of the country.

## Food Conservation Campaign Begun Here

A large number of citizens, business men and bankers will attend the rousing food preparedness meeting at the Decatur city hall tonight at 8 o'clock, where Senator Frank S. White, Frank Willis Barnett, associate editor of the Birmingham Age-Herald; Wade Wood and T. P. Hay, Jr., will speak. The efforts of these men, it is announced, will be devoted to late crops and the marketing of fall crops and surplus summer perishables. In view of the high cost of food products it is important that as many as possible be out to hear these prominent speakers. The same committee will proceed from Decatur to Athens, where they will address another gathering at 10 o'clock tomorrow morning, and on Thursday night a similar meeting will be held at Huntsville.

## Morgan Furniture Co. Money Raising Sale Begins Friday A. M.

The Morgan Furniture Company, in a double page advertisement in today's Daily, announces a gigantic "money raising sale" to begin Friday morning, June 29, promptly at 9 o'clock. During the sale the firm announces that it will grant big reductions in prices on its splendid \$15,000 stock, selling being for cash only unless terms are arranged with the manager, J. L. Proctor.

Friday morning, when the doors open exactly at 9 by the stroke of the clock, a \$5.00 gold piece will be given to the first customer who makes a \$19 purchase, while \$2.50 in silver will be given to the second person to purchase that amount. "We pay the freight" is one of the sale slogans, and special attention will be given to mail orders.

## Copper Miners Quit When Demands Refused

(International News Service.) Bisbee, Ariz., June 27.—The majority of the 5,000 copper miners in the Warren district struck today when demands for increases in wages were refused by three of the largest mines. About 190,000,000 pounds of copper is produced annually by the three mines hardest hit. The owners say they will keep the mines closed rather than pay the increase.

If you need a clerk, salesman, stenographer or any kind of help, the quickest way is a Daily want ad.

## MR. FARMER

BUTTER-FAT IS NOW SELLING AT 40c PER POUND OR \$800.00 PER TON, yet there are many farmers in this county who are letting a lot of this valuable product go to waste every week—all because they do not realize it's value. This loss will frequently amount to more than \$15.00 or \$20.00 per cow each year, and practically all of it can be saved through the use of a De Laval separator. Why not take the matter up with us today.

## Secretary Archibald Tenders Resignation

W. W. Archibald, secretary of the Albany Board of Commerce, has tendered his resignation to become effective upon the return here of President W. R. Hall of the organization on July 3. Mr. Archibald will return to Chattanooga, where he has large business interests.

That Mr. Archibald has tendered his resignation is a matter of general local regret. Since coming here he has worked indefatigably for the building of a bigger city, and his efforts have met with much success. Already, with the new silk mill, three factories have been secured, and another is in prospect.

John D. Wyker is the first vice-chairman of the Decatur Red Cross, and T. M. Jones the second vice-chairman, despite the fact that the Daily, in giving the list of the officers of the organization, erroneously stated yesterday that Mrs. Wyker and Mrs. Jones had been elected to the offices.

# How the L. & N. Dollar is Distributed

ELEVEN years prior to the Civil War, or sixty-six years ago, public spirited men with faith in the future of the South, and in the fairness of the people of the South, established the L. & N. Railroad. Since that time the L. & N. has rendered unsurpassed service and is the only railroad ever established in the South which has not been through bankruptcy.

During those sixty-six years the L. & N. has expended many millions of dollars in the South, not only for the development and upbuilding of its own property, but for the development and upbuilding of the South.

Figures, available for the last sixteen years only, show that the L. & N. has expended during those sixteen years \$24,000,439.17 for taxes, paid into the South's public treasury; for material and supplies \$167,475,437.53; for fuel \$43,082,955.39; for wages to employees \$324,870,160.41, the greater part of which was expended in the South, and many millions of which were brought to the South from other sources to develop and enrich the South.

The average income on the property investment in sixteen years was 5.96%. The most prosperous year—1904—was 7.14%, and the poorest—1915—was 3.75%.

L. & N. officials have expended L. & N. income to the best possible advantage for the material welfare of the L. & N. and the South. At the same time, those investors who own the L. & N., and have faith in the South and in the fairness of her people, must be accorded consideration in the form of some return on their investment.

## Pershing and Joffre Have Become "Pals"

(International News Service.)  
Paris, June 27.—Gen. John Pershing, commander of the United States forces that will fight in France, and Marshal Joffre, have become "pals." The friendship which sprang up between these gallant soldiers when the first met has grown into intimate comradeship.

## Chills and Fever Not Only Signs of Malaria

Throughout the South, the thought of chills and fever has been so constantly associated with malaria that many people think them the only signs of that disease.

But as a matter of fact, nearly everyone living in a southern climate is more or less affected with malaria, though comparatively few suffer with chills and fever.

Perhaps the most common symptom of malarial poisoning is that "all-in-the-head," listless, lifeless feeling. If you feel that way, especially at this time of the year, it will be well for you to take a few doses of Quinotone, a tonic prepared especially for the relief of malaria, and thus avoid the attack of chills and fever that might otherwise follow.

Quinotone is a pleasantly flavored vegetable preparation. It contains no arsenic or quinine sulphate, nor is it necessary for you to take calomel or blue mass with it. Yet it is more prompt in effect than many remedies containing those drugs.

Many of your neighbors have taken it. They will tell you how good it is, how pleasantly it acts. It is guaranteed to please you, or your money cheerfully refunded.

You can buy Quinotone in big 50-cent packages at Dillingham Brothers or other good drug stores.

NOTE.—Readers are advised to insist upon genuine Quinotone—their health will be better for it, and they'll know they are getting the best remedy for their malaria or chills and fever.

(Adv.)

**No. 666**  
This is a prescription prepared especially for MALARIA or CHILLS & FEVER. Five or six doses will break any case, as if taken then as a tonic the Fever will return. It acts on the liver better than Calomel and does not gripe or sicken.

## Freight Rate Increase Is Affective Sunday

(International News Service.)

Washington, June 27.—Just three days remain before the railroad tariffs proposing a general freight rate increase of 15 per cent will become effective, unless the interstate commerce commission suspends them. The new tariffs, which will be effective at midnight Saturday, will add \$400,000,000 a year to the freight bill of the United States.

## WHY IT SUCCEEDS

Because It's for One Thing Only, and Most People Appreciate This.

Nothing can be good for everything. Doing one thing well brings success.

Doan's Kidney Pills are for one thing only. For weak or disordered kidneys. Here is reliable evidence of their worth.

T. B. Potter, R. F. D. No. 1, box 62, Hillsboro, Ala., says: "I suffered from a dull, heavy ache through the small of my back and had pains in my sides and loins. Doan's Kidney Pills gave me immediate relief and continued use cured me. At that time I gave a public statement recommending this medicine. As there have been no signs of the trouble since, my opinion of Doan's Kidney Pills has undergone no change."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that cured Mr. Potter. Foster-Milburn Co., Props., Buffalo, N. Y. (Adv.)
